

MAKE SURE YOUR PATIENTS AND ATHLETES FINISH STRONG

GO FOR WINNING RECOVERIES
WITH THE GAME READY®
COLD & COMPRESSION SYSTEM

GAME  READY®

ACTIVATE NEXT-LEVEL INJURY & POST-OP RECOVERY

After injury or surgery, help your patients and athletes get back to what matters as quickly as possible.

*"A revolutionary combination of evidence-based modality and best-practice protocol."**

Randy R. Hite, MPT, CSCS, SCS | Gillette Physical Therapy

Give your patients and athletes a winning recovery.

After an injury or orthopedic surgery, the rehab and recovery process is most critical to successful outcomes. With the industry-leading Game Ready® cold and compression therapy system, you can help your patients and athletes finish strong, so they can get the most from their recovery regimen and get back to what matters most as quickly as possible.

PROVEN CLINICAL BENEFITS HELP YOU MEET MULTI-MODAL RECOVERY GOALS

- ✓ Reduces patient opioid consumption and may allow for earlier discontinuation of opioid medications in certain patients.^{1,2,3}
- ✓ Decreases pain and edema.^{1,4}
- ✓ Increased post-operative range of motion in ACL patients.³
- ✓ May increase patient satisfaction with the recovery process.^{1,5}

More effective cooling than other RICE methods.

Chosen by thousands of orthopedic surgeons, sports medicine specialists, physical therapists, athletic trainers, professional sports teams, and special military forces around the world, the Game Ready System provides faster, deeper-penetrating, and longer-lasting cooling compared to traditional RICE methods and other devices.**

Integrated cold and compression, all in one powerful system.

The portable Game Ready System takes RICE (Rest-Ice-Compression-Elevation) to the next level by integrating active cold and intermittent compression therapies with greater adjustability, precision, and convenience than ever before.

 **Active Cryotherapy.** Circulating ice water continuously and consistently cools the injury site to safely and comfortably reduce pain without narcotics.

 **Circumferential Coverage.** Anatomically designed wraps surround the injury site, covering more surface area for more effective cooling.

 **Simple Operation.** The system makes it easy to use pre-set programs and quickly customize time temperature, and compression settings.

 **Intermittent Compression.** Gently squeezes and releases to remove swelling, stimulate the flow of blood, and conform the wrap to the body.

 **Portable Convenience.** With an available battery pack and carry bag, the Game Ready System can be used on the go.

Easy to set up, easy to operate.

Setup is simple and intuitive. Users can select from six automated programs, manually control their own protocols, and customize temperature, compression, and treatment time settings with the touch of a button or turn of a dial.

Innovative wrap design for better comfort and results.

Game Ready's comprehensive line of dual-action wraps enables integrated, no-mess cold and compression therapy from head to toe. Featuring patented technology, the low-profile, lightweight wraps are anatomically engineered for better fit and comfort - and deliver circumferential coverage and greater surface contact for more effective therapeutic treatment.

*"Game Ready changes how we can treat patients."**

Why choose Game Ready® recovery technology?

The clinically proven Game Ready System integrates cold and compression therapies to help reduce pain and edema - outperforming conventional RICE methods and other devices.

After injury or orthopedic surgery, you want to help your patients and athletes improve outcomes, promote compliance, increase satisfaction, and get back to what matters as quickly as possible.

Game Ready offers effective pain management while helping to reduce the use of the opioid medications^{1,2,3,4} that have caused an epidemic affecting human lives, the healthcare industry, and the economy.

Game Ready is the injury and post-op treatment system of choice for thousands of orthopedic specialists, physical therapists, athletic trainers, and professional sports teams around the world.

*"Game Ready provides a significant decrease in the need for pain medication and at least a 20% faster recovery."**

Peter Millett, MD, MSC | The Steadman Clinic

*"Pro athlete or not, patients want convenience and progress... Game Ready improves outcomes."**

Kenneth Akizuki, MD | SOAR | Team Physician, SF Giants

*"The best system I've ever seen for the treatment of diverse injuries."**

Chris Spalding, ATC | Director of Sports Medicine & Rehab, US Navy SWCC/SEALS

Help your patients and athletes finish strong with next-level injury and post-op recovery.
