

**Stendo<sup>®</sup>**  
Hydrogel face mask

A new version of yourself

# STENDO® HYDROGEL FACE MASK

The active ingredients of this mask have been specifically developed to be applied on a stimulated skin with the **Stendo® Face treatment**

## The Cosmetic Mask

This hydrogel face mask is made up of natural polymers: carrageenans. These polysaccharides, constituting the walls of red algae, are associated with water to form a fresh filmogenic gel. Easy to use, this mask adapts to all forms of the face like a second skin. Enriched with anti-ageing active ingredients, they act together to fight the first signs of times, soften and improve skin comfort.

## The active ingredients

This active ingredient contains polysaccharides from an Indian plant, *Cassia angustifolia*, used in Ayurvedic medicine for over 1000 years. They reduce the production of cortisol, stress hormone and increase the synthesis of hyaluronic acid and collagen (in vitro tests). Thus this active ingredient helps to fade the signs of time and enables the skin to regain its beauty.

ANTI-AGEING  
ACTIVE  
INGREDIENT

Sodium hyaluronate in the presence of water is transformed into hyaluronic acid which is naturally present in the skin and acts as a real sponge to attract and retain a significant amount of water. It plays an essential role in the integrity of the cutaneous structure and in the regulation of the hydration of the skin. The sodium hyaluronate used in this formula is of high molecular weight (1800 to 2200 kDa). Applied to the superficial layers of the skin, it forms a non-occlusive moisturizing film that gives the skin a soft, velvety appearance.

SODIUM  
HYALURONATE

D-panthenol also called provitamin B5, has many benefits. Soothing and moisturizing, it improves comfort and suppleness.

D-PANTHENOL

## The beauty routine

Open carefully the sachet. The mask is placed between two transparent sheets. Remove the first sheet of protection. Then, apply the mask on the face and press gently to make it stay on the skin. Then follow the instructions of the **Stendo® face mask** protocol.

Precaution for use: in case of eye contact, rinse with water.
